ABOUT ME

As a recent graduate in games design, I am currently looking for my first step into the industry. With a passion for game from concept to testing I enjoy working in teams or solo!

Being brought up with games has often led to me feeling like there's something missing and with the skills at my disposal to create what I want, developing games has always been my calling. Helping customers find things they love and iterating to solve problems is all part of the enjoyable process.

SKILLS

Project Management:

- Jira
- Microsoft Planner

Programming:

- C#
- HTML / CSS

EXPERIENCE- WORK

Sales Assistant

Tesco, Hull – Liverpool (working since 2020)

For 2 years as a festive colleague and the last 3 years on a permanent contract, I have worked consistently at Tesco. I have learnt to work with customers and to apply myself to many different situations whenever staff are needed for any department.

- Customer Service
- Time Management
- Quick – Paced
